

Application S/N: 10/655,530  
Docket No.: MEMS-0178

REMARKS

In the foregoing Amendment, Applicant has replaced the reference to the prior Attorney's docket number in the claim for priority claimed on September 22, 2003. (See, Page 2 of the transmittal letter dated September 22, 2003). Applicant did not have the serial number of the Provisional Application at the time of filing and was unable to recover it from the prior law firm. However, the claim for priority was timely made and the information contained therein adequately identified the appropriate provisional application as evidenced by the attached PALM print out used to obtain the serial number of the referenced provisional application. Accordingly, this is not a new claim for priority, but merely a clarification of the prior claim for priority.

Should there remain unresolved issues that require further action, it is respectfully requested that the Examiner telephone Mark E. Olds, Applicants' Attorney at 888-510-0695 ext. 103 so that such issues may be resolved as expeditiously as possible. The application is now considered to be in condition for allowance and such action is earnestly solicited.

Respectfully Submitted,  
Keady, Ciccozzi & Olds, PLLC
